

Job Opening: Planning Head – Heavy Steel Structures (02 Position)

📍 **Location:** Varanasi

🏭 **Industry:** Heavy Steel Fabrication & Structures

🕒 **Experience Required:** 10–15 years in Project Planning (Heavy Steel Structures / Fabrication Yards / Industrial Projects)

About the Role

We are looking for a highly experienced and results-driven **Planning Head** to lead the project planning and control function for heavy steel structure works. The role involves developing, monitoring, and controlling project schedules, coordinating across engineering, procurement, execution teams and ensuring the timely delivery of large-scale steel structure projects.

Key Responsibilities

- Lead overall project planning, scheduling, and control using **Primavera P6 / MS Project**.
 - Develop baseline schedules, Work Breakdown Structures (WBS), and resource loading plans.
 - Coordinate with engineering, procurement, fabrication yard, and erection teams to ensure smooth execution.
 - Monitor project progress, identify bottlenecks, and implement mitigation strategies.
 - Prepare, review, and present **monthly MIS / project progress reports**.
 - Integrate procurement planning, yard setup, manpower, and machinery requirements into project schedules.
 - Provide management with detailed forecasts, variance analysis, and decision-support reports.
 - Lead and mentor the planning team, providing technical and professional guidance.
 - Develop **fabrication drawings, shop drawings, and GA drawings** for heavy steel structures.
-

Qualifications & Skills

- B.E. / B.Tech in **Mechanical / Civil / Structural Engineering**.
- **10-15 years** of proven experience in planning and execution of heavy steel fabrication & erection projects.
- Strong expertise in **Primavera P6, MS Project, Auto CAD** (knowledge of other planning tools will be an advantage).
- Proficiency in **Auto CAD, Tekla, SDS/2, or similar detailing software**.
- Hands-on experience with planning for **fabrication yards, industrial plants, bridges, or heavy structures**.
- Excellent leadership, coordination, communication, and analytical skills.
